1. The following is an examiner's statement of reasons for allowance:

The reference (US 6,007,740) fails to teach the present formula (1-2) (see Table 1 and Table 2 in the declaration filed 10/27/04). Also, the present formula (1-3) differs from the reference formula (1-6-4). Although the reference formula (1-9), which is functionally equivalent to the reference formula (1-6), encompasses the present formula (1-3), the Table 4 in the declaration shows different liquid crystal properties. The reference formula (1-2-1) differs from the present formula (1-1), which has a fluorine atom at 3 and/or 5 positions in phenyl ring. Therefore, the present liquid crystal compositions differ from the prior art including the new references (US 6,572,938 and 6,759,102) cited in PTO-892.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
